1. Launch App.

The screenshot shows the MyMenu Debug app interface. At the top, there's a navigation bar with icons for location, signal, battery, and time (3:32). Below it is a teal header bar with a menu icon, the text "MyMenu Debug", and a three-dot menu icon. The main screen has a dark grey header with tabs for "MAP", "SPECIALS", "PREFERENCES", and "SETTINGS", where "MAP" is selected. Below the header is a search bar with the placeholder "Search...". Underneath are three filter buttons: "Distance", "Top Rated", and "Cuisine". The main content area displays five restaurant reviews with their details and logos:

2. Click on a restaurant, e.g. Boston Pizza and select reviews page

The screen shows a mobile application interface for a restaurant review page. At the top, there is a navigation bar with icons for back, home, and recent apps. The main content area features a large image of a Boston Pizza meal, specifically a ribeye steak with a decorative drizzle of sauce. Below the image, there is a navigation bar with tabs: INFO, DINNER, DESSERT, APPETIZER, and REVIEWS. The REVIEWS tab is highlighted with a green underline. The main body of the page displays three review entries, each consisting of a profile picture (a smiling face), the reviewer's email address (bieber@ualberta.ca), a rating (e.g., 10.0, 9.1, 8.4), a rating description (e.g., Test Rating Description), and a more options menu (three vertical dots).
